

CATERPILLAR SOLENOID 1766219 NEW

Product Images

Description

Description: Cat solenoids are round coil of wire that's been insulated and used to create a magnetic field in the atmosphere of this current. Cat solenoids are a specially engineered electromagnet in which a coil of wire is wrapped around a specially shaped core made of steel or iron. It is an integral component in all sizes of motors. Attributes: • OEM direct replacement part • 24V ESO Application: Cat solenoids are used in fuel injection pump assemblies and fuel pump assemblies. Consult your owner's manual or contact your local Cat Dealer for more information.
